**Vote Robert "Bob" McCann**

**As Commissioner I will:**

#### **Promote Parks**

I will prioritize the completion of Premier Sports Campus! Every field sport under the sun is available for athletes of all levels, including practices, instruction, and all levels of competition. I will also fight to upgrade aging parks throughout our neighborhoods to promote community, health and well-being.

#### **Effect Disaster Management**

Investigate the dam, the reasons for the latest flooding, and implement methods to rectify the harm that has already been done. We must make necessary investments to abate future flooding before approving any further building and development.

#### **Focus on Zoning and Land Use**

I will involve residents in the land use and zoning/rezoning processes to guarantee that the community's needs and desires are taken into account.

#### **Protect our Natural Resources**

I'll fight to get back the 50-foot wetland buffer that the current Board took away! We must protect Florida's natural beauty and heritage including our wetlands and wildlife habitats.

#### **Address Traffic Congestion**

In order to maintain and repair roads, control storm drainage, and lessen bottlenecks, I will push to create necessary infrastructure, such as bridges, roads, walkways, water and sewage systems, and traffic flow enhancers.

#### **Be Accountable to Voters**

As YOUR Commissioner, I will communicate with and be accountable to our whole community and consider the future of Manatee County.

**The power and authority of the government originates with the people!**

**LET'S RE-DEVELOP THE COUNTY COMMISSION.**
