**Position-**

**Working with YOU, for a change!**

- **Individual Rights - PEOPLE FIRST!** The Commission needs to legislate policy to protect the health, welfare, safety, and improve the quality of life of Manatee County residents and **stop the urban sprawl.**
- **Traffic Saturation** -When the number of cars on the road surpasses the capacity of the street, traffic congestion results, leading to longer commutes, accidents, potholes, and higher insurance premiums. **Prioritize building infrastructure.**
- **Protect our natural resources** including wetlands, agriculture, wildlife habitats, Florida's natural beauty and heritage. **Everyone needs boundaries!**
- **Less Government interference** - Decision-making should be as local as possible, and the free market should control all financial decisions. **Local Control!**
- **A responsive and reformed county commission** -would increase the importance and reach of decision-making for common, everyday citizens. **Builders must repay Impact Fees.**
- **Veterans Issues** – When our soldiers return home, far too many of them are homeless, jobless, and without access to healthcare and education. No more veterans living on the streets! **Build housing, NOT Monuments or Parks!**
- **VOTE:** Our **VOTES** MUST Speak Louder than their campaign contributions!
- **Transparency/Accountability**- We, not the highest bidder, should be the commissioners' ultimate authority!
